TERMS OF SALE

(Please Read Carefully)

1. BIDS BY MAIL, EMAIL, PHONE or FAX will be accepted until the closing date. All phone bids must be confirmed in writing on a signed bid sheet. Bids are treated as LIMITS. Bids are reduced where competition permits. In the case of tie bids, the first received is normally given preference. No "buy" or unlimited bids are accepted. Bids are accepted by lot number only. No lots are broken up. Bids are only executed in even dollar amounts.

2. This sale is NOT an approval sale. All material offered is guaranteed genuine and as described. Careful examination has been made of every lot. Cataloging errors will be cheerfully and promptly corrected. **FLOOR BIDDERS MAY NOT RETURN ANY LOTS** including those purchased while acting as agents. All claims for adjustment by other bidders must be made within five days of receipt but in no case more than 35 days after a sale. As the auction house acts as an agent for various consignors, NO CLAIM OF ANY KIND can be considered after settlements have been made. If a claim is not made within this 30 day period, no lots are returnable for any reason at any time. If we are notified prior to our settlement date that an opinion of condition, alteration or authenticity is being sought, the matter will remain open until such opinion is rendered. **Lots are not shipped until paid for in full.** Therefore, late payment will negate a return privilege. Any returned lot must be in its original holder with seal intact. Large miscellaneous or "bulk" lots cannot be returned for any reason.

3. **Successful floor and mail bidders are required to pay the full invoice amount before lots are delivered. Terms of this sale are strictly cash or an approved VISA or MasterCard (refer to Paragraph 5). Should payment be made by check (in any form), the auctioneer reserves the right not to deliver lots until funds have cleared, usually 14 business days.** First rate credit references and a 25% deposit are necessary to insure entry of your bids. Any portion of such a deposit not used will be promptly refunded after the sale. Any questions regarding the above policy should be made in writing to the auctioneer 7 days prior to the sale date.

4. **A 15% buyer's charge will be added to the successful bid price of each lot.** This 15% buyer's charge will be added to the invoice of each successful bidder without exception, and is payable by the buyer as part of the total purchase price. Additionally, 5% monthly interest is charged on all accounts 30 days past due calculated from the sale date. If any awarded lots are still on hand without a deposit 30 days after a sale, they will automatically be offered to the underbidders or relisted in the next available sale. The difference in price will be billed to the former bidder. Late payers should not expect to receive future catalogs.

5. **TERMS OF THIS SALE ARE STRICTLY CASH AND MUST BE PAID PROMPTLY IN U.S. FUNDS.** Payment should be made immediately upon receipt of the invoice. Payments from foreign accounts must be made in **U.S. Dollars by International Check drawn on a U.S. bank** or by wire transfer to the account of Craig A. Whitford Auctions, c/o Comerica Bank, Lansing, Michigan. (As a convenience, invoices may be charged to your VISA or MasterCard accounts. Please supply account number, signature and expiration date on your Bid Sheet. *Refer to your Bid Sheet for further instructions.*)

6. POSTAGE, INSURANCE and/or handling fees are added to ALL SHIPMENTS. *(Minimum charge of $3.00 per parcel).* All lots to be mailed to addresses not in the United States of America or its Territories, are charged an additional 1% insurance fee unless insurance is provided by the bidder. Overseas bidders must supply full detailed shipping instructions and agree to all terms as listed herein before shipment is made. We normally use registered airmail with return receipts and proper custom tags on overseas shipments.

7. SALES TAX will be collected under the laws of the state in which the sale is conducted unless a valid resale number is presented. **Sales Tax in the amount of 6% will be collected on all lots delivered within the State of Michigan.**

8. TITLE TO ALL LOTS REMAINS WITH THE AUCTION HOUSE until payment in full is received. The auction house reserves the right to accept or reject any or all bids at its discretion. Generally, bids below 60% of estimate will not be accepted. By placing a bid in this sale either in person, by agent, mail, email, phone or fax, you agree that this agreement is made in Michigan by the auction house's entry of your bid, and that disputes concerning the agreement shall be decided by the application of Michigan law. In the event of a dispute or nonpayment, the auction house may elect to proceed judicially, in which case the bidder consents to jurisdiction and venue in the courts of Ingham County, Michigan. If an account is referred to an attorney for collection, the buyer agrees to hold the auction house harmless and to indemnify it for all costs of collection, including actual, reasonable attorney's fees, with interest as provided in Paragraph 4 accruing on the entire amount until paid.

9. Items photographed in this catalog are of the actual items being sold.

10. **BIDDING IN THIS AUCTION SALE CONSTITUTES ACCEPTANCE BY THE BIDDER OF ALL THE FOREGOING TERMS OF SALE.**

TIPS FOR SUCCESS BY MAIL BIDDERS

Mail Bidders have come to be a substantial part, perhaps 80%, of those winning lots in our numismatic auctions. They have helped to establish our reputation of varied successful sales. In addition to instructions on the bid sheet, we are happy to fulfill reasonable special instructions for our clients.

Bidders find intense competition for especially desirable lots, often clustering in the same price range at or slightly above our estimates. Such estimates are to be used as guides only. Often the final price for popular and high grade material will be over estimate; in some cases, two or three times over.

In analyzing the results of our past sales, we find approximately 10% of the lots sell at top wholesale, 80% sell around full retail and the remaining 10% exceed our expectations.

For your guide, we quote some strategies and bidder techniques followed by those who consistently win lots by mail bid.

1. **Always read the Terms of Sale** and compare rules from various numismatic auction houses. These will vary from firm to firm and also from sale to sale within the same firm. Be aware of Buyer's Fees, Value Added Tax, handling and shipping fees as well as the extent of guarantee, return privileges and late payment or storage charges.

2. Tie Bids are often received in mail bids. Our policy is to award the lot to the earliest postmarked bid. Also considered are those clients who pay their accounts promptly. **Always mail your Bid Sheet as early as possible.** You may also fax us your bids anytime 24 hours a day at (517) 394-0579.

3. **Please read and sign your Bid Sheet** and include your phone number. Unsigned bid sheets may not be considered. If we believe a significant bidder error has been made, we will attempt to verify a bid by phone before the closing date.

4. It is a poor strategy to bid at low levels on numerous lots. Those who do so achieve little success. For the auction firm, needless time is spent to process the unlikely bids. Auction firms have learned the practice is counterproductive and lessens the professional credibility of the bidders. **Lots bid under 60% of the value or estimate are not recorded;** bids under 75% have little chance in bidding competition. Please review your financial circumstances carefully before bidding.

5. It assists the auction firm if the bids are listed in numerical order. Mistakes can be avoided and processing is easier. **Always recheck your bid sheet.**

6. Do not be afraid to bid over estimate if you feel a lot is worth it. We find that most tie bids occur on lower priced items. Where possible, lots are purchased for mail bidders below their maximum bids. This happens on about 20% of all lots. Once a sale has been called, we cannot increase your bid. We will always try to purchase the lot for you as inexpensively as possible.

7. If you want a percentage increase on any lot or lots, indicate this on your bid sheet. We prefer that you do this on a lot by lot basis on a few lots rather than just checking an overall percentage increase box.

8. Should you wish bidding to stop for you when a certain total has been achieved, we can generally follow your instructions even if you bid up to four times your total limit. We can enter your bids in the bid book or have one of our assistants represent you from the floor. In this manner, you can submit more bids, increasing your chances of success without overextending your budget. This gives mail bidders one of the traditional advantages of floor bidders which is participating competitively within ones means. *We can also recommended independent agents which will bid for you from the floor for a modest fee.*

9. If you are interested in purchasing just one lot of a type where several similar types are offered, indicate this with special instructions. Just bracket those bids and mark **"one only"** or **"alternate."**

10. Known clients in the United States only may request permission to view lots by mail *(except for large or bulk lots, or other multiple coin lots)* until 10 days before the sale date. Photos can also be requested at a fee. The bidder requesting inspection of lots by mail agrees to pay postage and insurance both ways and to insure and be responsible for the pieces while in their possession. This advantage may answer specific questions one may have about varieties or condition.

11. Depending on facilities and personnel, it may be possible to arrange telephone bids with the client, to compete with the mail bids and floor bidders. Usually there is only one telephone available. Such arrangements usually are for a single coin or grouping of coins.

12. **Become a subscriber.** This will insure that you will receive catalogs and prices realized by timely first class mail. The prices realized can be a useful study guide for future bidding or purchases. It can also indicate areas where prices are declining or increasing and helps one to evaluate similar pieces in a collection. *(Our current subscription rates are: U.S. & Canada $17.50; Overseas $25.00 in U.S. Funds)*

13. By following the above tips you can have an enjoyable and successful time bidding by mail in numismatic auctions. **Should there be any questions about lot descriptions, Terms of Sale, bidding procedures or estimates, please call us at (517) 394-4443 during regular business hours which are 10 a.m. to 4 p.m. EST, Monday through Friday.**

Goetz Medals

The Artistry of Karl Goetz

Karl Goetz, the German medalist, was born in Augsburg in 1875. After studying at various German Art Schools and briefly residing in Holland and France, he settled permanently in Munich in 1904. Goetz died in 1950 leaving a legacy of over 730 medals recording and commemorating a half century of tumultuous German history. His work sometimes satirizes and other times pays tribute to the people and events from the period of the Empire through the end of the Third Reich. The works of Goetz offered in this sale include a sampling of original plasters from the Goetz studio and a large selection of medals.

We have used the reference, ***"The Medals of Karl Goetz"*** by Gunter W. Kienast, in cataloging these plasters and medals. Goetz identified his medals by "Opus Numbers," as we have done here. The size and metal are indicated for each lot. Should you require additional information on any of the featured lots, please feel free to contact our office for assistance.

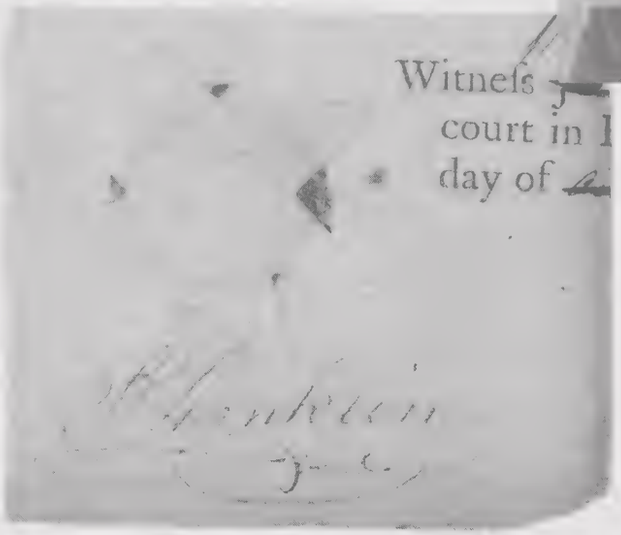
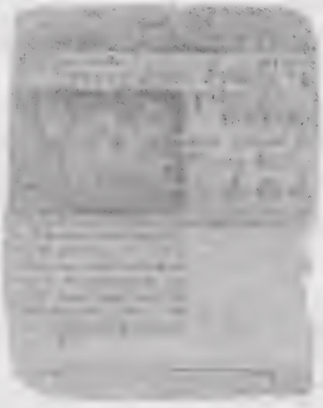
Fine, ltly toned along the right and bottom edges. A*ccompanied by a Certificate of Authenticity from a UACC member dealer.*

Newspaper – *The Pennsylvania Gazette*, November 19, 1747, Numb. 988. 4 pages, 21 x 35cm, bearing the Imprint: *"PHILADELPHIA: Printed by B. FRANKLIN, POST-MASTER, at the New-PRINTING OFFICE, near the Market"* at the bottom of Page 4. An ad on the Page 4 announces the availability of *"POOR RICHARD IMPROVED...FOR the YEAR 1748"* and *"Sold by B. FRANKLIN..."* Fine, toning along right and top edges, lt center fold. A difficult to locate example prior to his business partnership with David Hall.

Colonial Currency – Delaware. February 28, 1746. 20 Shillings. Plate A. Imprint: *Printed by B. FRANKLIN* on back. Very Fine for issue, text is quite sharp and fully readable but for on the typical heavy centerfold. Signatures are faded, somewhat irregular margin at lower right. Overall, a very clean and collectible note of this 1746 issue, which is rarely ever encountered in better condition. Some expert conservation is noted at the folds.

Medal – Libertas Americana Medal, 1781 [1782]. Bronze, 47.7mm. Betts 615, Loubat 14. EF, rich brown patina over somewhat reflective surfaces. Commissioned by Dr. Benjamin Franklin from dies by Augustin Dupre. The obverse features the bust of American Liberty with Phrygian cap on a pole behind her head; while the reverse depicts an infant Hercules strangling two serpents (reference to the battles of Saratoga and Yorktown), protected from cowardly British lion by France portrayed as Minerva. The obverse design of Liberty with flowing hair served as the inspiration for our own first coinage designs (1793) of half and large cents. An impressive medal.





Coinage – 1787 Fugio. Pointed Rays, States United. Kessler-Newman 12-X. Choice AU, lovely chocolate brown patina with some iridescence, lt flan striations. An excellent example of the type.

Portraits – A wonderful collection of 13 different copperplate or steel engraved portraits, plus one color lithograph of the esteemed statesman from a variety of artists and time periods. A virtual reference collection of images. Also included is a single Turkey Feather – as a memento of his desire for the Turkey to be our National Bird.

A marvelous collection and difficult to assemble. ($10,000 – 12,500)

The Mint Director writes regarding a *"cake of native silver from Lake Superior"* and reading in part: *"You will see by the receipt...that its weight was 96.8 oz Troy...To determine the fineness, pieces were taken from opposite ends, and their assay...gave an average of 950 thousandths pure silver...The assay of the silver resulting proved to be 999 1/2 thousandths, or within a minute fraction of absolute purity...The native metal is therefore composed of 95 per cent Silver / 5 per cent earthy matter. The value of the deposit, viz $118.57, will be paid, in silver coins, to your order...The interesting specimen will be preserved by us, and will occupy a conspicuous place in our cabinet. I send you a small strip of the silver, freed from all earthy matter..."* An important letter regarding the precious metal from Michigan's Upper Peninsula on the eve of the California Gold Rush. As my time for retirement has been extended to 6 mo. After the war, I am naturally getting ready to conduct my own business again. During Nov & Dec. I received a great many calls to engrave coats of arms on signet rings, book plates etc. and it just about makes one break even. The disgraceful salary at the Mint would not keep me. Original letters regarding the Mint Act of 1792 and the Controversial Silver Standard employed by the Mint in coining the Silver Dollars of 1795

2229P. **VAUGHN, John.** Philadelphia Merchant, Personal friend of President George Washington and among the first and largest depositors of Silver Bullion to the first United States Mint. Autograph letter signed. 2pp, 8" x 9.75". Dated at *Philadelphia, May 26, 1798*. In an effort to recoup losses from the use of an "illegal standard" in refining the silver bullion into coinage, Vaughn writes: *"As the Committee of Claims may wish to know for the establishing their report in favor of John Vaughn may affect the United States, they are respectfully informed. That by Abstract F. 24 Nov 1796 annexed to the Report of the Present director of the Mint...it appears that the whole deposit of Standard Silver...from the commencement of the establishment to 30th Sept 1795 was 320,170 Onz J. Vaughn Deposited 230 888 1/2...Whether this further Sum will ever be claimed does not concern the present application – but it may not be amiss to observe, that no base silver was found in his Deposits nor was the United States at any expense to refine for him. On the Contrary, the purity of his deposit lessen'd the expense of refining the other Deposits very considerable. Granting however that the Claim of the other Depositor is not impaired from this Circumstance, it cannot exceed the further Sum...The Committee of Claims is respectfully informed that a small inaccuracy has crept into their Report on the Petition of John Vaughn (dated 19 May 1798) in that part which states the Legal proportion of fine Silver to Alloy, in the Silver Coins of the United States. The 9th Section of the Law of 2 April 1792 establishing the Mint, declares that the weight of the Dollar shall be 416. grs. and it declares further that the fine silver contained therein shall be...371 4/16, which of course makes the alloy 44 12/16. The 13th Section of the Same law declares the Standard to be 1485 parts fine to 179 parts alloy – This proportion is also that of 371 4/16 fine to 44 12/16 alloy, equally gives...Instead of the proportion adopted by the Committee...A Calculation made by the accounting offices of the Treasury upon the latter proportion advised by the Committee would not agree with the Law establishing the Standard."* Plus another letter, 1p., written and signed by Vaughn dated Feb 16th, 1799 to The Honorable Dwight Foster Esq. reads in part, *"In my yellow fever removal, the Papers got mislaid, or I should have no apology for having given them so late...I should not be so desirous of having this business settled; but I am closing my Commercial Concerns, & am indebted to the public...amongst other items nearly 1/3 this amount on acct of Saltpeter & other Expenses in Separating some of the Bullion at the mint; & I confess, it would be a very a very great relief (If Congress judge my claim founded which I believe they will) to be able to arrange in this manner, & not be compelled to advance money, which would distress me not a little..."*

An impressive pair of letters recalling the struggles of the first U.S. Mint. Additional information regarding the controversy may be found in Frank H. Stewart's, ***History of the First United States Mint*** or in any of the fine articles, written over the years, by Robert Julian regarding the matter.
